

BUILDING COMMUNICATION & Broadband Networks for Electric Cooperatives

KGPCo is a leader in the communications industry and a Tier-1, woman-owned diversity business. Together with a rich portfolio of global OEM partnerships, our KGPCo OneTouch™ model leverages technical strategy, implementation services and supply chain capabilities to provide a single-source solution to help you build and maintain your networks and connect your customers.

Our cost-effective solutions combine product distribution, advanced supply chain management and inside plant, outside plant and wireless services for implementations including FTTx, Grid Modernization, Substation Connectivity upgrades and more, helping Electric Cooperatives build communication networks that deliver high-speed connectivity in their communities.
